Step by Step Guide:

FIRST: Find & Install “Aurasma” from your device’s store page

- Open Aurasma on your device!

One-time steps…

- Allow Aurasma to use location or not – your choice. App needs location to function properly.
- A brief tutorial pops up for you to use.
- You’ll need to create an account.
- This app requires access to your camera, so click OK.

Now to see what each poster contains digitally…

- Click on the white 🎨 icon on your screen.
- Click on “Search icon” at the bottom of the screen and type “Columbus State” in the address bar.
- Select “Columbus State Library’s Public Auras.”
- Click “Follow” button. It changes to “Following.”
- Click the frame 🎨 at the bottom of the screen to return to the original screen.
- Aim your device to center the frame on the main photograph in each poster and see what pops up!
