1. Enter keywords in the Find boxes. Combine keywords and phrases with AND.

2. Leave settings on “Select a Field” for your first search. The database will search for your keywords automatically. For a more specific search, use the drop-down menu to select where the database searches for your keywords (i.e. in “AU Author,” “TI Title,” etc).

3. Limit your results by Source Types. For example, limit your results to Literary Criticism for scholarship on a work.

4. Click on the title of the article for citation information and abstract. Click on the Full Text link to view and print the full text of the article.

Literary Research Guide

The Literary Research Guide highlights useful resources, such as books, journals, databases, and websites, to start your literary research. Access at [library.cscc.edu/literature](http://library.cscc.edu/literature).

Library Catalog:

Search the Library Catalog for books, electronic and audiovisual sources.

The Library Catalog can be found on the Library’s home page ([library.cscc.edu](http://library.cscc.edu)) under the Find Books & More tab.

Select the type of search:

- **Keyword**: narrow your search by combining terms. Type an author’s name AND criticism to retrieve criticism about an author’s works (i.e. Mark Twain AND criticism).
- **Title**: search by title if you know the exact title of your author’s work.
- **Author**: access the works written by a specific author (author’s last name, first name).

Research Databases: Humanities International Complete

- From the Library home page ([library.cscc.edu](http://library.cscc.edu)), select **Find Books & More**, then **Databases**.
- Click on **English** under **All Subjects** on the top of the page, then **Humanities International Complete**.
- Choose **Advanced Search**.

1. To find literary criticism of an author’s work, enter the title of work or author’s name and the word, **criticism**, in the search boxes. Combine keywords and phrases with **AND**.

2. Leave settings on “**Select a Field**” for your first search. For a more specific search, use the **drop-down menu** to select where the database searches for your keywords (i.e. in “**AU Author**,” “**TI Title**,” etc.).
