Curator and Artist’s Statement

Cecilia Román is formally trained in the field of audio visual communications. Her artistic vision has evolved over twenty years to include oil paintings focusing upon abstractions. Her style incorporates the valuable mentoring of community artists.

“Everyone should think about how we can brush with art. This exhibition serves as a catalyst to explore the arts and to use its methods to communicate, create and react to our surroundings. The exhibition is comprised of 15 works that speak the language of expression.”
